

Color	Color Chip	Pantone Ref.	Blend	Description
Rocky		17-4402	4 parts PSB to 1 part CC103 (Firing range cone 6 to 06)	Perfect for Garden Stones. A satin finish of stone gray with mineral specks. For more depth in your stone antique with CC101 before application.
Strawberry Malt		16-1720	4 parts PSB to 1 part CC130	The name says it all. Specks are pronounced on a beautiful pink background. A beautiful polished background.
Wood Violet Speck		16-2107	4 parts PSB to 1 part CC137	Wood-Violet Speck: A strong dusty violet. Specks do not have a strong presence but are visible. Consider this an Art Glaze more than a predominant speck.

Free technique on web site for this diffusion project.

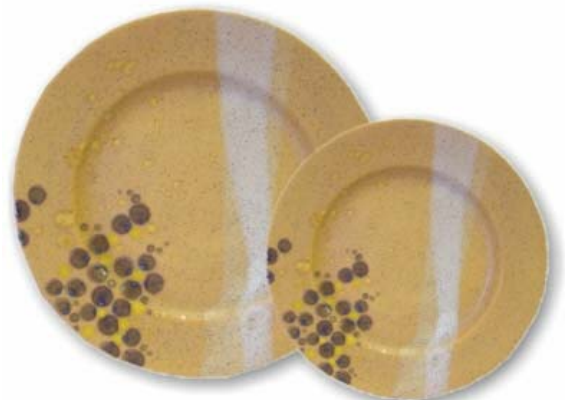

Diffusion Examples

Tinted Potters Stone Buff base glaze with a white tinted PSB glaze section and then diffusion technique to create the leaves.

Diffusion with Gizmo and brush over a tinted PSB glaze.

Tinted PSB base glaze with white tinted PSB stripes. Clear diffusion dots and tinted diffusion dots (some colors will not diffuse as well as others).
