

Snowman Mug Hat

Use card stock, a folder or scraps of plastic canvas to create a band the circumference of your mug.

Use glue or staples to create the band.

Using a 12-inch piece of yarn, (you will need 75 to 100) loop it through the piece of roll you cut off. Form a loop like shown. Then pull yarn through the loop so that it's tight and center the loop on the inside of the band.

Continue all the way around the band, making sure your yarn is centered after each loop

When finished pull all of the loose yarns together and tie off with a piece of yarn as shown so that the top looks like a pom-pom. Trim and fill with a little cotton.
